Notice: Teaching Arrangements for New Academic Year

The new academic year is coming. In response to the latest re-emergence and developments of COVID-19 in Macao and even across the country, to ensure the health and safety of all students, online and offline classes will be conducted simultaneously in the first two weeks of the first semester of 2021/2022 academic year. Students are advised to prioritize health and safety, and make arrangements for returning to Macao* in a timely manner based on the development of the epidemic and your own situation.

Important information about teaching arrangements for the first semester of 2021/2022 academic year are as follows:

Date (Time)	Item	Applicable to	Remark

2021/9/1~2021/9/14	Online and offline classes conducted simultaneously ^{remark}	All students	Please pay attention to the latest arrangements and notices of the Faculty /Institute/Department of General Education <u>before class commencement.</u>
2021/9/7	Announcement of teaching arrangements after 2021/9/14		

Remark : 1. The above arrangements are subject to changes in response to necessary epidemic prevention measures. Please pay attention to the latest announcements of the University.

- 2. For related user manual, guidelines and demo videos of cloud classroom, please refer to the Home page of Cloud Classroom in the Student Portal (<http://i.must.edu.mo>).**
- 3. For campus and classroom epidemic prevention measures and notes for students, please refer to the attachment.**

* Taking into account that some resident students may wish to return to campus and move into the dormitories ahead of time after assessing their own situation, the dormitories will be open to resident students of Undergraduate and Pre-University Studies programs from August 16 and to those of Postgraduate programs from August 18.

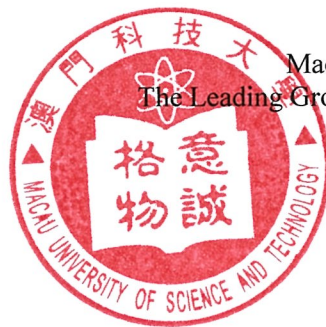

Students should keep abreast of the latest epidemic information and entry quarantine measures of the Macao SAR Government (<https://www.ssm.gov.mo/PreventCOVID-19>). At the same time, please cooperate with all kinds of epidemic prevention measures to maintain personal, household and environmental hygiene, pay attention to your physical and mental health, and respond proactively to the normalization of epidemic prevention and control.

The university will pay close attention to the development of the epidemic and take the health and safety of all teachers and students as the primary consideration. Students are also required to take personal protective measures and pay attention to the latest announcements of the University.

Campus and Classroom Epidemic Prevention Measures and Notes for Students

- 1) Students must comply with the epidemic prevention measures of the Macao SAR government and the University, including: temperature check, wearing masks, crowd control, presentation of Macao Health Code, maintaining social distancing, health management, medical observation, etc.
- 2) Students should take their own body temperature measurement every day. Students with fever (with ear temperature at 38°C or above /forehead temperature at 37.5°C or above), acute cough or generalized muscle pain, etc. must not attend classes, put the mask on and consult a doctor promptly.
- 3) Students should login to WeMust Student APP every day for health declaration.
- 4) Students who enter the campus to participate in classes or activities must present a green Macao Health Code and wear a mask. Students who hold the yellow or red code should immediately notify the Faculty / Institute / Department of General Education and the class mentor so that they can make appropriate teaching arrangements according to the actual situation.
- 5) When attending classes and conducting related teaching activities, students must wear a mask at all time, avoid eating or drinking, and maintain at least 1 meter of social distancing. Students should also pay attention to personal and environmental hygiene to avoid cross-infection.
- 6) Students should avoid gathering on campus, consciously take different paths to reach classroom/destination and avoid using elevators.
- 7) Students should avoid leaving Macao or commuting across borders to minimize the risk of contracting the novel coronavirus. All students should carefully assess the necessity of crossing the border and be prepared to bear the consequences of their own actions.
- 8) In case of failure to return to the University due to force majeure, students must contact the respective Faculty / Institute / Department of General Education to explain the reasons and situations, so that they can deal with their absence in light of the circumstances and provide timely academic assistance to minimize impact on their study.
- 9) The epidemic has become normalized and is constantly changing. When there is risk in the community, the University may temporarily switch to online classes so as to cooperate with the Macao SAR government's epidemic prevention measures. Therefore, in addition to prepare for offline learning on campus, students should also prepare appropriate equipment to facilitate online learning and assessment, so as to cope with any contingency measures implemented.
- 10) Please pay attention to the latest epidemic prevention information of the Macao SAR government (<https://www.ssm.gov.mo/PreventCOVID-19>) and latest announcements of the University, and make personal anti-epidemic measures and preparations.
- 11) For any enquiries about the teaching arrangements, please contact the respective Faculty / Institute / Department of General Education.
