Introduction to Remedial Courses (Applicable for Bachelor's Degree Program)

The remedial courses (including Remedial Chinese, Remedial English I, Remedial English II and Remedial Mathematics) are designed for new students* who are in need of strengthening their foundations in these essential subjects and facilitate their study of these subjects in the study plan developed for the bachelor degree program.

*The University will decide whether it is necessary to arrange remedial courses according to the results of the Admission Examination/Placement Examination/National College Entrance Examination/Public Examination Scores etc.

For those who need to study the remedial courses, the specific subjects that they are required to study will be specified in the acceptance letter. The University generally schedules these students to study them in the first semester of the academic year (for students who are required to study both Remedial English I and Remedial English II, Remedial English II will be taken in the second semester). Each course generally runs a total of 45 hours per semester and 3 hours per week. Upon completion of the specified remedial courses, students will be awarded a certificate based on their performance in these courses.

If you have any questions about the remedial courses or the above arrangements, please contact the Department of General Education (Tel: +853 8897-2114, E-mail: dgs-ad@must.edu.mo). Please provide the student's name and application number/student number for follow-up.
