

Notes for Health Examination

Notice: New Students should get the health examination according to the appointment date and time; and **should arrive at the Register Counter of the University Hospital 15 minutes earlier**. Students who arrive late should go to the EHMC Nurse Station at the University Hospital as soon as possible during health examination office hours (Mondays to Sundays, 9:00 - 17:00, except public holidays) with their appointment confirmation to enquire about the health examination arrangement. *Remark: Changes of the appointment cannot be made after the deadline.*

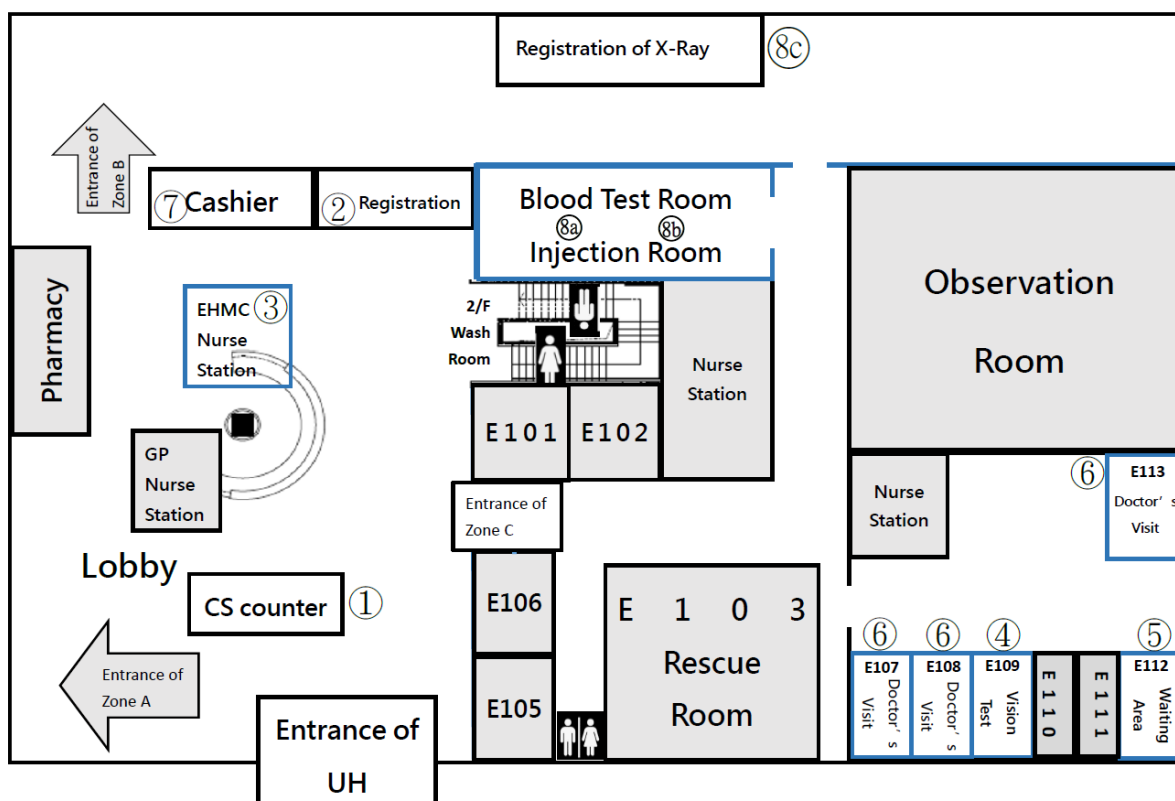

I. New students must bring along the following for health examination :

1. **Original copy** of personal identification documents (Identity card, passport or “Permit for travelling to and from Hong Kong and Macao”).
2. The proof of vaccination (e.g., vaccine booklet, vaccination certificate) **must be the original copy**, photocopies or photographs of the documents will not be accepted.
 - Original copy of household registration or certificate of change of name is required for verification if the name on the vaccine certification does not match the name on the identification document.
 - Any correction of personal information on the vaccine certification should be stamped by the organization which issued the certificate.
 - If the vaccine certification has been lost, please prepare other proofs as replacement according to Q13 of the [Frequently Ask Questions of Health Examination](#) before coming to Macao.
3. Present the barcode of appointment which can be checked from **【WEMUST STUDENT APP > (MUST Life) Orientation > In-Person Registration > Health Examination】** .

II. Notice before the Health Examination :

1. To maintain crowd control and on-site settings, students should get the health examination individually. Only students under 18 years of age (excluding 18 years old) can be accompanied by one family member, guardian or companion.
2. Students should wear mask, check body temperature to access the University Hospital; and get the health examination after the personal information is verified at the Register Counter.
3. No fasting is required for the health examination.

4. No urine test for female students during menstruation (can attend other tests as usual).
Student should go to attend urine test three days after menstruation. Please bring along the identification documents to the Executive Health Management Centre of University Hospital, (Zone C), 1st floor, Block H. between 9:00-17:00, Mondays to Sundays (except public holidays) for urine test.
5. Please check below in advance for the health examination procedures and “Health Exam Process Map” and get the health examination according to the on instruction on the day of the health examination.

III. Health Examination Result :

1. Students can check the Health Examination result via **【WEMUST STUDENT APP > (MUST Life) Orientation > In-Person Registration > Health Examination】**. Students should pay attention to the status by themselves until it shows the result of each health examination items are all completed or “Completed (Fit)”.
2. Please note: University Hospital might request some students to attend re-examination / supplementary examination according to the condition of the students. Therefore, students should pay attention to whether there are remarks on the health examination page on WEMUST / report, or notification from the hospital.

IV. Enquiry:
