艺术和建筑策展 Curator for Art and Architecture Exhibitions

唐克扬教授与故宫博物院、尤伦斯艺术中心、敦煌研究院、德国国家收藏馆等多样化的国内外重要艺术机构有过合作,也尝试在博鳌亚洲论坛、农村粮库、城市购物中心这样一些不寻常的场合展出作品。对他来说,博物馆空间不是活动场地,而是测试艺术、技术和文化关系的实验室。他的合作对象既有著名当代艺术家包括徐冰、吕胜中、曾梵志、丁乙、徐累等等,也有弘扬传统艺术的机构。

Professor Tang has curated art exhibitions in prestigious art institutions in China and abroad, such as Palace Museum, Ullens Center for Contemporary Art (UCCA), Dunhuang Acadamy, and Staatliche Kunstsammlungen Dresden in Germany. He also explored unusual venues for art display including Bo'ao Asian Forum. In his opinion, art display space is not only a venue for art events like museums, but a laboratory to test the relationship between art, technology and culture. He has worked with famous contemporary artists including Xu Bing, Zeng Fanzhi, as well as traditional Chinese artists and art institutions.

设计创新教育和设计创新实践

Education and Practice on Design Innovation

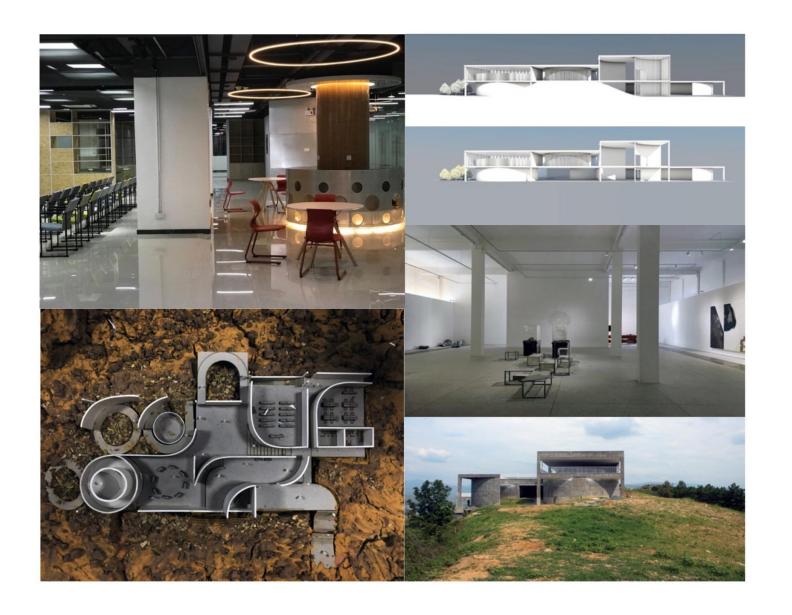

唐克扬教授认为,建筑学不应仅仅讨论建筑造型,它还应思考人居环境对于人类文明的意义生成。作为历史悠久的"有意味的形式",空间结构可以变身人和环境积极对话的媒介,也是创新思维模式发生的介面。他在中国人民大学,北京大学,上海纽约大学和南方科技大学的教学实践工作,在这个方向积极探索;在这一过程中他并创立了"空间与媒体实验室",在校内校外的不同平台,创作了与此相关的一系列艺术装置和设计作品。

Professor Tang believes that architecture design is more than making physical forms; instead, it should consider how the innovation of man-made environment contributes to civilization. As a "meaningful" form, innovative SPACE make the interface to promote dialogues between man and his circumstance, as well as the unique media to forge new patterns of social thinking. He is actively exploring this innovation process in his teaching, research, and practice, such as Space and Media Lab on SUSTech campus, and designing a variety of projects and installations off campus.
