 Discussion
 NOTSS De-briefing
- 17:00 Closing comments

Places are limited so please register earlier to avoid disappointment. If you would like to register your interest in attending the event or if you have any questions about the course please contact our faculty

The NOTSS workshop focuses on the non-technical skills which underpin safer operative surgery. It explores a behaviour rating system developed by the Royal College of Surgeons of Edinburgh which can help you develop the knowledge and skills to improve your performance in the operating theatre in relation to situational awareness, communication, decision making and leadership/teamwork. Each of these categories is broken down into elements or behavioural markers that indicate can be used to identify a superior or substandard performance. A faculty of three RCS(Edin) Fellows will lead you through a series of interactive exercises to help you better understand how these markers can be used to reflect on your own performance and that of the surgeons you work with

A one day course for understanding, observing and rating the non-technical skills required to underpin good surgical performance

Capacity: 24 (Max)

Ways to Register
 All applicants must complete the attached form and submit to secretary's office by email or fax two days prior to the proposed event.
 (Tel/Fax +853 2825 9012 or email: aizza.event.vivian@gmail.com)

Venue: Center of Excellence for Medical Professional Development, IIF Block E, MUST Campus
