

Practical Endoscopy Training Course

(Mentorship Program)

Achieving the Best Practice in Endoscopy Training

Objectives: To enhance the quality and safety of upper and lower gastrointestinal endoscopy training in the region, the Faculty of Health Sciences, Macau University of Science and Technology and University Hospital, MUST established the training initiative.

The faculty established a comprehensive series of theoretical, hands-on simulation and standardized endoscopy training courses, conducted by high quality trained supervisors both from Hong Kong and Macau. Standards have been set for individual physicians and for the conduct of quality training in endoscopy. Targeted at physician and surgeon trainees, the faculty provides local support for the endoscopy workforce to ensure they have the skills, resources and motivation necessary to deliver high quality patient care here in Macau.

PROGRAM

Stage One:

- 1) Basic Skills Workshop (6.5 hours) – Introduction, theories and orientation in VR simulation training
- 2) Hands-on Simulation workshop (15 hours) for the training of gastrointestinal upper and lower endoscopic procedures, offering a comprehensive library of modules with 100 tasks and virtual patient cases ranging from simple diagnostic to advanced procedures
- 3) Narrow Band Imaging & Capsule Endoscopy Workshop (3.5 hours)

Period:	May – October 2014
Presented by:	Faculty of Health Sciences
Stage 1 Location:	Centre of Excellence for Medical Professional Development, 1/F Block E, MUST Campus
Charges:	Stage One: 5,000 MOP Stage Two: (To be Confirmed)

This special ultrasound skills training workshop provides further education and skills training opportunities in a safe, realistic and risk-free environment
