Recruitment of The State Key Laboratory of Quality Research in Chinese Medicine

The State Key Laboratory of Quality Research in Chinese Medicine (Macau University of Science and Technology) was formally established on January 25, 2011 upon approval from the Ministry of Science and Technology of China. It is so far the only State Key Laboratory specifically in the field of Traditional Chinese Medicine over the country.

The State Key Laboratory of Quality Research in Chinese Medicine will be mainly responsible for performing pioneering quality research and discovering novel drugs from Chinese medicines. The Laboratory is strongly striving for conducting original innovative researches, acquiring intellectual properties, nurturing talent young scientists for Chinese medicine research, and expanding high-level international academic collaborations as its goals. Synergistic applications of the multi-disciplinary and cutting-edge technologies are particularly encouraged so as to establish the most innovative and common scientific technological platforms for quality research of Chinese medicines and new drug discovery.

To cope with the developmental plan, we are now inviting applications for the following positions:

Associate Professor/ Assistant Professor (Ref. no: SKL-1314-1)

The State Key Laboratory of Quality Research in Chinese Medicine is seeking experienced principal investigators to initiate research projects for Traditional Chinese Medicines using the state-of-the-art proteomic platforms. Proteomic platform establishment for new drug invention are emphasis research theme and main focus area of the State Key Laboratory.
