**Deadline for that discounted price is 25 April 2019.**

#### **About CIMA and CGMA Qualification**

The Chartered Institute of Management Accountants (CIMA), founded in 1919, is the world's leading and largest professional body of management accountants. CIMA helps individuals and businesses to succeed by harnessing the full power of management accounting – not just accounting for the balance sheet, but accounting for business. Together with the American Institute of Certified Public Accountants (AICPA), we established the Chartered Global Management Accountant (CGMA) designation in 2012 to provide members with a new level of resources and recognition. In 2017, members of CIMA and AICPA formed the Association of International Certified Professional Accountants to unite and strengthen the accounting profession globally. Representing an influential network of more than 667,000 members and students in over 179 countries, the Association prepares future business leaders for today's challenges and tomorrow's opportunities.
