

Admission Examination Outline

Doctor of Philosophy in Artificial Intelligence

Examination Mode: Written Examination, Oral Interview

Time Limit: 2 hours for the Written Examination

Language: English

Contents of the examination:

Three papers in the field of Artificial Intelligence will be provided. Each candidate selects one of those papers, reads it carefully and writes a short summary in English.

The summary should include an overview of the problem the authors are solving, their approach, any advantages/disadvantages you see, and how they evaluated the work. Also, you can make note of what future work is mentioned and any other future work that you think might arise out of the paper and a list of questions and/or comments that you have about the paper.

The summary should use your own words. You should remove as many typos, spelling errors, and grammatical errors as possible.
