

Department:	Faculty of Information Technology
Course Name	Introduction to Microwave Technology
Hours per week	4
Number of Credits	4
Course Description	<p>The course will introduce the basic microwave technology, antenna technology, propagation, and special topics in microwave and propagation field.</p> <p>The objective of the course is to introduce fundamental concepts of microwave communication technology and related special topic in microwave and propagation fields, as well as to provide a basis for applying these techniques in communications, digital signal processing</p>
